Improving pediatric patient care

Jinan Children's Hospital

Jinan Children's Hospital cares for more than 1.1 million children each year. Since its foundation in 1957, it has become the leading pediatric care center in Shandong Province and continues to expand rapidly, with patient data growth putting acute pressure on the hospital's storage systems. With all-new, all-flash Lenovo ThinkSystem storage solutions in place, Jinan Children's Hospital has dramatically increased storage capacity and performance, ensuring that critical systems run smoothly to deliver high-quality care for patients.
